Church Admin OS

Thank you.
Your template is ready.

Click the button below to copy Church Admin OS into your own Notion workspace. It takes less than a minute.

Get your template →

Or copy this link into your browser: https://steadfast-sunstone-022.notion.site/Church-Admin-OS-986ff743521f8310ab2901f428845c3a

1 **Sign in to Notion**
Open notion.so and sign in, or create a free account. The free plan is enough.

2 **Open the template link**
Click the gold button above. The template opens in your browser.

3 **Click the Duplicate icon**
Look at the top right of the page for **two overlapping squares**, next to the share icon. Click it and choose your workspace. Church Admin OS then appears in your sidebar with all six databases and five dashboards connected.

4 **Open the Setup Guide**
Inside your copy, open "Setup & Data Protection Guide" and follow it. You'll be running your first Sunday in about 30 minutes.

> Please keep this link for your church's own use. Your purchase covers one church or ministry. If you'd like to use it across several branches, get in touch.

Church Admin OS

Your first 30 minutes

1 · MAKE IT YOURS (10 MIN)

- [ ] Rename the Small Groups, Sermon Series and Service Types to match your church.
- [ ] Look at "Example – The Power of Grace" in the Sermon Vault to see the recommended structure.
- [ ] Add your staff and volunteers to the Member & Volunteer Directory.

2 · PLAN THIS SUNDAY (15 MIN)

- [ ] Create this Sunday's service in Sunday Services.
- [ ] Link a sermon, then add run-sheet items with start times and durations.
- [ ] Add rota shifts and link each volunteer. Watch Readiness on Mission Control turn ✅.

3 · INVITE YOUR VOLUNTEERS (5 MIN)

- [ ] Invite volunteers to Notion and set "Volunteer Account" on their shifts.
- [ ] Send them the Volunteer Hub link. They'll see only their own shifts.

Before inviting anyone, protect pastoral data. A filtered view is not a lock. Keep Mission Control, the Engine Room and the Care Hub in a staff-only area, and share only the Volunteer Hub with volunteers. Step 3 of the Setup Guide shows you how, in line with UK GDPR.
